SOFTBALL

WHAT KIND OF PLAYERS ARE WE LOOKING FOR???

1. Players who understand from the beginning that hard work is the minimum expected of them, and not the maximum. Players who understand that there are few guarantees in life and that two are:
 - A. Success will not be easily achieved.
 - B. Players who are unwilling to give a total effort in practices are unlikely to give a greater effort once the games begin.
2. Players with a favorable attention span and the ability to listen and concentrate.
3. Players who can take criticism and acknowledge their mistakes without alibis, excuses, or blaming others.
4. Players who love the game.
5. Players who work hard.
6. Players who enjoy competing - and winning.
7. Players who like - and more important, respect - their teammates and coaches.
8. Players who are loyal to their team, teammates and coaches.
9. Players who understand that good players show up for big games, but great players show up for every game.
10. Players who exhibit leadership qualities.
